3V10!

Open game then close game = all achievements.. Its ok. This game is designed for a really slow pc so i have no trouble running it.

After 15 minutes of playing it gets boring. I would not recommend it.. Great visual novel, good story telling. I enjoy playing this very much. The graphics are great, the detail on the vehicles is incredible. It definitely fills a void in the simulation genre. I would recommend it.. DOWNLOADS MALWARE

Don't Buy!!!. Yes. ♥♥♥♥♥♥♥♥yes!

Worth it

i would say for \$.62 it is a good deal and i ended up getting it for free by selling some of my trading cards!. Okay, let me gat this straight - this is not a good game to play. Damn, it is barely playable at all - loading goes for 10 minutes (versus 1-2 in the original game), sometimes game freezes and slows down. Some triggers don't want to work and you have to run around for another hour to find some little zombie behind some door. Design goes from quite cool to disgracefully awful and gameplay is just ruined - but hey, there is still a good side. Developers had a great idea of making maps REALLY BIG, so somehow I had a feeling of open-world. This is really cool. But technically this game is hell in all aspects, so I don't think that you want it.. Still better than COD. this game makes me remember my childhood life (minesweeper in 2018). This VN was okay. Nothing special. The art is good, although sometimes the facial expression doesn't match the character's feelings. That kinda bothered me...

That's it, basically. It's quite short, and if you enjoy these kinds of VNs, get it when the game is on sale. I don't think it's worth the full price, to be honest.

5/10.. i dont recommend this video because dota 2 champions is not hot enough like lol, lol got them niceeeeeee champs :) . rate 10/10, XBOCT pls do me. <https://youtu.be/KgRRpZmwp5A>

[I have to say that Quote does need a little bit of polish, but from what I saw while making my First Impressions video I was quite impressed. A solid art style with an interesting take on gameplay. A few framerate drops and some mild design oversights, but there is definitely a good, solid title in here. Although, to be honest, this may appeal more to the child market than it would adults. That is not a negative in my eyes, merely an observation.](#)

[This is definitely one Early Access game I will be keeping my eyes on.. OMG!!! THIS GAME IS RIDICULOUS!!!!!!!!!! love it, play it repeat but there r still some bugs, if u want me to tell u about them i can do it, however . real diamonds has always a dust in it. This software should have a level share system like they did in super Mario maker. Awesome - serious omage to games like R-Type](#)
